

**New Mexico Primary Care Office Presents:
Understanding & Leveraging the Economic and Community Impact of Rural Health Care
National Center for Rural Health Works Regional Workshop
June 12, 2019**

Location: Marriott Albuquerque, 2101 Louisiana Blvd NE, Albuquerque, NM 87110

Presenters:

Ann Peton, Director, National Center for Rural Health Works (NCRHW)

Gerald Doeksen, Ph.D., Former Director, NCRHW and Regents Professor/Health Economist, Oklahoma State University

Summary of Workshop:

National Center for Rural Health Works Workshop

The National Center for Rural Health Works (NCRHW) is a federally funded research center established over 25 years ago to create economic impact tools, surveys and needs assessments for public usage. Recently, NCRHW was transitioned to the Edward Via College of Osteopathic Medicine in order to continue the work of educating various rural stakeholders of these tools, such as this workshop.

The workshop provides attendees a better understanding of the tools and services that the national center provides to the rural health services sector.

NCRHW has researched and studied the economic impact of primary care physicians, rural hospitals, nursing homes, clinics, and dentists for over 25 years. We hope we can provide you and your organization additional support by increasing community and economic engagement.

National Center for the Analysis of Healthcare Data

Established in 2007 at VCOM, the National Center for the Analysis of Healthcare Data (NCAHD) provides many important services to different organizations throughout the healthcare industry. They have the data, capability and experience needed to support your projects through their services: mapping and spatial analysis, trend analysis, workforce research, economic impact analysis, and our unique internet-mapping portal. NCAHD will present how to effectively operate and use the national data-mapping portal and discuss how the NCAHD can meet all of your organization's needs.

AGENDA June 12, 2019 Wednesday		
12:00pm – 12:15pm	Welcome and Introductions	Ann K. Peton, MPH
12:15pm – 1:15 pm	NCRHW Economic Impact Products	
	Theory of Input-Output	Dr. Gerald Doeksen
	Summary of NCRHW economic impact studies	Dr. Gerald Doeksen
	Economic Impact of a Critical Access Hospital – sample report	Dr. Gerald Doeksen
	Economic Impact of a State that didn't Expand Medicaid	
	Nursing Home Economic Impact	Gerald Doeksen, PhD
1:15 – 1:35	A Demonstration of Online Economic Impact Tools	
	Demonstration of Online Economic Impact Tools, Averaged Multipliers, and Leveraging these tools for Community and Organization Development	Ann K. Peton, MPH

Ann Peton
	Questions and Discussion	
4:50 – 4:55	Summary and Discussion	
5:00	ADJOURN	

Presenters:**Gerald Doeksen, Ph.D.**

Dr. Doeksen is Professor Emeritus and Economist for the Department of Agricultural Economics at Oklahoma State University. Dr. Doeksen was awarded the American Rural Health Association Research Award for developing medical-practice feasibility guidebooks and was honored by the Journal of Emergency Medical Services for his guide for planning rural EMS systems. Dr. Doeksen has worked with communities and health care providers in Oklahoma for over 35 years and co-founded the National Center for Rural Health Works. He contributes to the campus-community partnership by sharing his special expertise in measuring the economic benefits of the health sector and in developing budget studies for health services.

Ann Peton, MPH

Ann Peton is the Director of both the NCRHW and the Analysis of Healthcare Data (NCAHD) located in Blacksburg, Virginia. She has over 30 years' experience working with local, state and national entities and individuals regarding GIS applications and usage. She established NCAHD in order to create and provide the most complete and consistent set of health care workforce data and mapping tools in the nation for physicians and 15 other non-physician health care providers. Ms. Peton has established successful partnerships with the American Medical Association, the American Osteopathic Association, the Health Resources and Services Administration, and many other health care agencies and organizations.
